⏰ 🛡️ *Grant Just-in-Time Admin Access with Microsoft Entra PIM*

Enforce least privilege. Secure your environment. Maintain audit readiness.

#PerparimLabs | #MicrosoftEntra | #PIM | #ZeroTrust | #SC300

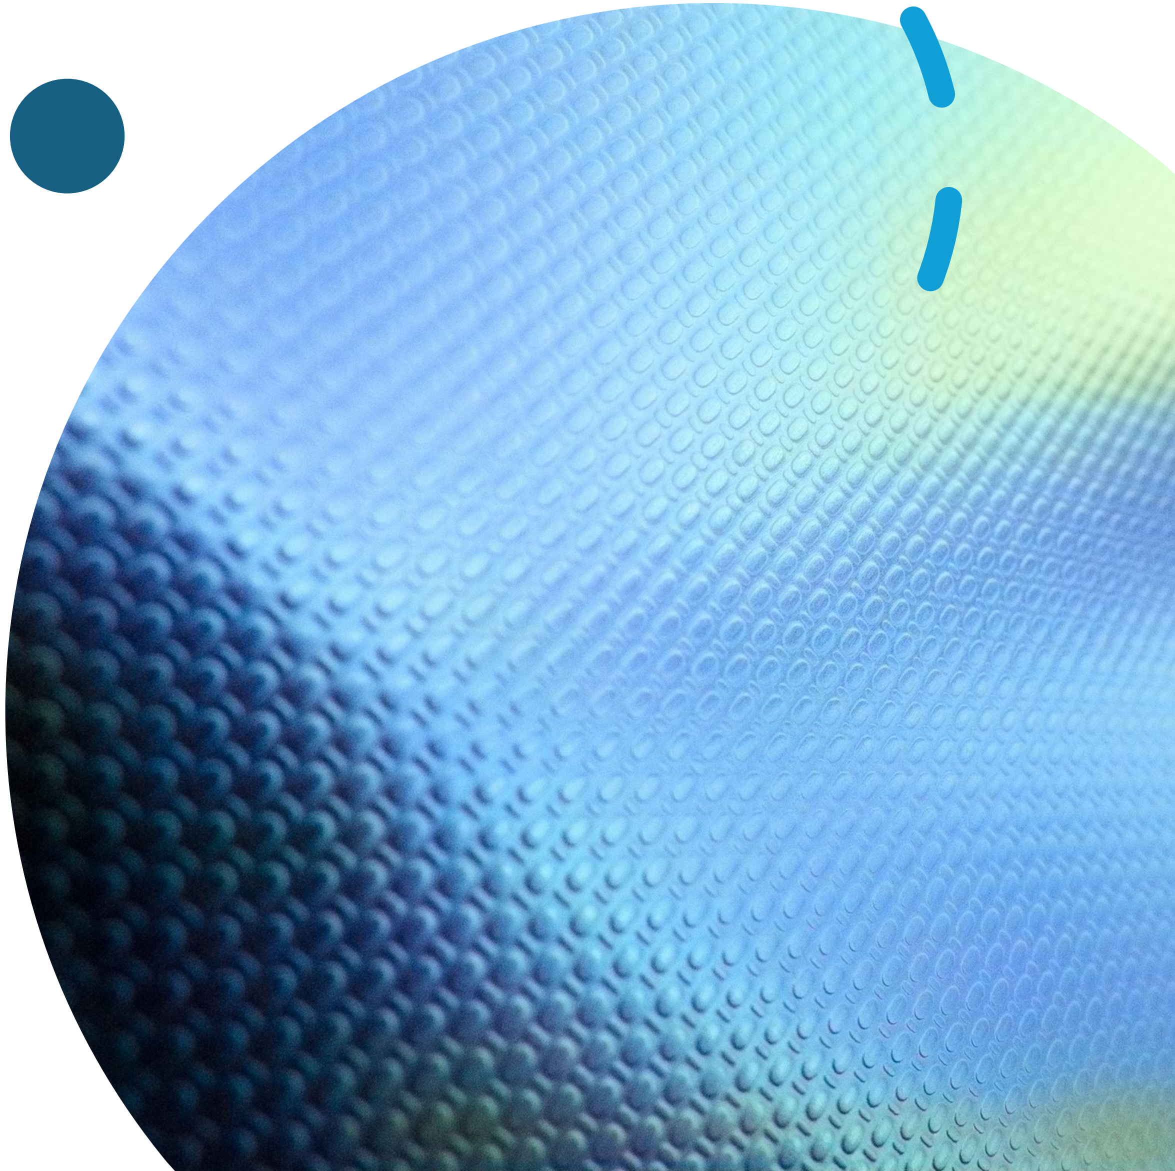
Why Use Privileged Identity Management (PIM)?

- 🧨 **Standing admin access = constant risk**
- 🕛 **JIT (Just-in-Time) access reduces attack surface**
- 🔐 Enforces **least privilege** by default
- ✅ Ensures admin rights are **temporary, approved, and auditable**
- 🛡️ Critical for **Zero Trust** and compliance readiness

No one should have permanent admin access — even admins.

How Just-in-Time Access Works with PIM

- 🔑 **Assign Role (Eligible)**
- 🙋 **User Requests Activation**
- 🛡️ **Optional Approval Step**
- 🔒 **MFA & Justification (If enabled)**
- ⏰ **Temporary Access Granted**
- 📤 **Access Expires Automatically**

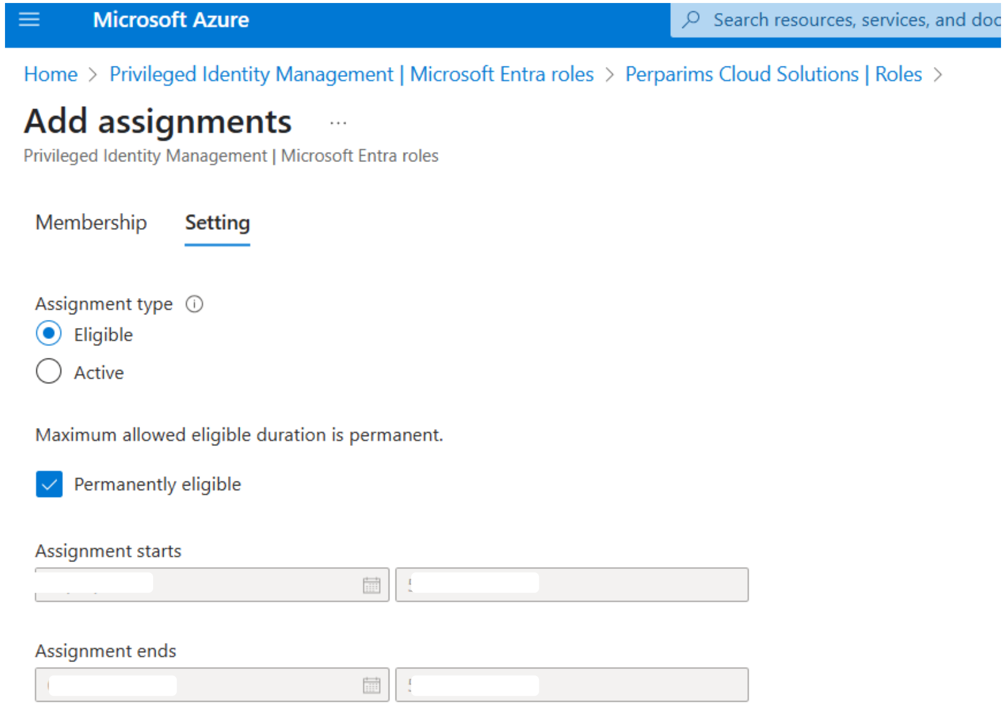


Assign an Admin Role with Just-in-Time Access

Here we assign a user to the **User Administrator** role using Microsoft Entra PIM.

The role is marked as **Eligible**, meaning the user must manually activate it when needed — ensuring that privileged access is temporary and intentional.

🧠 Tip: For higher control, you can configure a specific start and end window instead of permanently eligible.



Home > Privileged Identity Management | Microsoft Entra roles > Perparims Cloud Solutions | Roles >

Add assignments ...

Privileged Identity Management | Microsoft Entra roles

Assignment type ⓘ

● Eligible

○ Active

Maximum allowed eligible duration is permanent.

☑ Permanently eligible

Assignment starts

[redacted] [redacted]

Assignment ends

[redacted] [redacted]

(Permanently eligible shown for demo — time-bound options available)

How the User Activates Their Role in PIM

- Eligible users can view their roles in **Privileged Identity Management** under *My Roles* or *Assignments*.
- To gain access, they must click **Activate**, provide justification, and confirm their **MFA challenge**.
- Access is granted only for the configured time window — and everything is logged for audit.

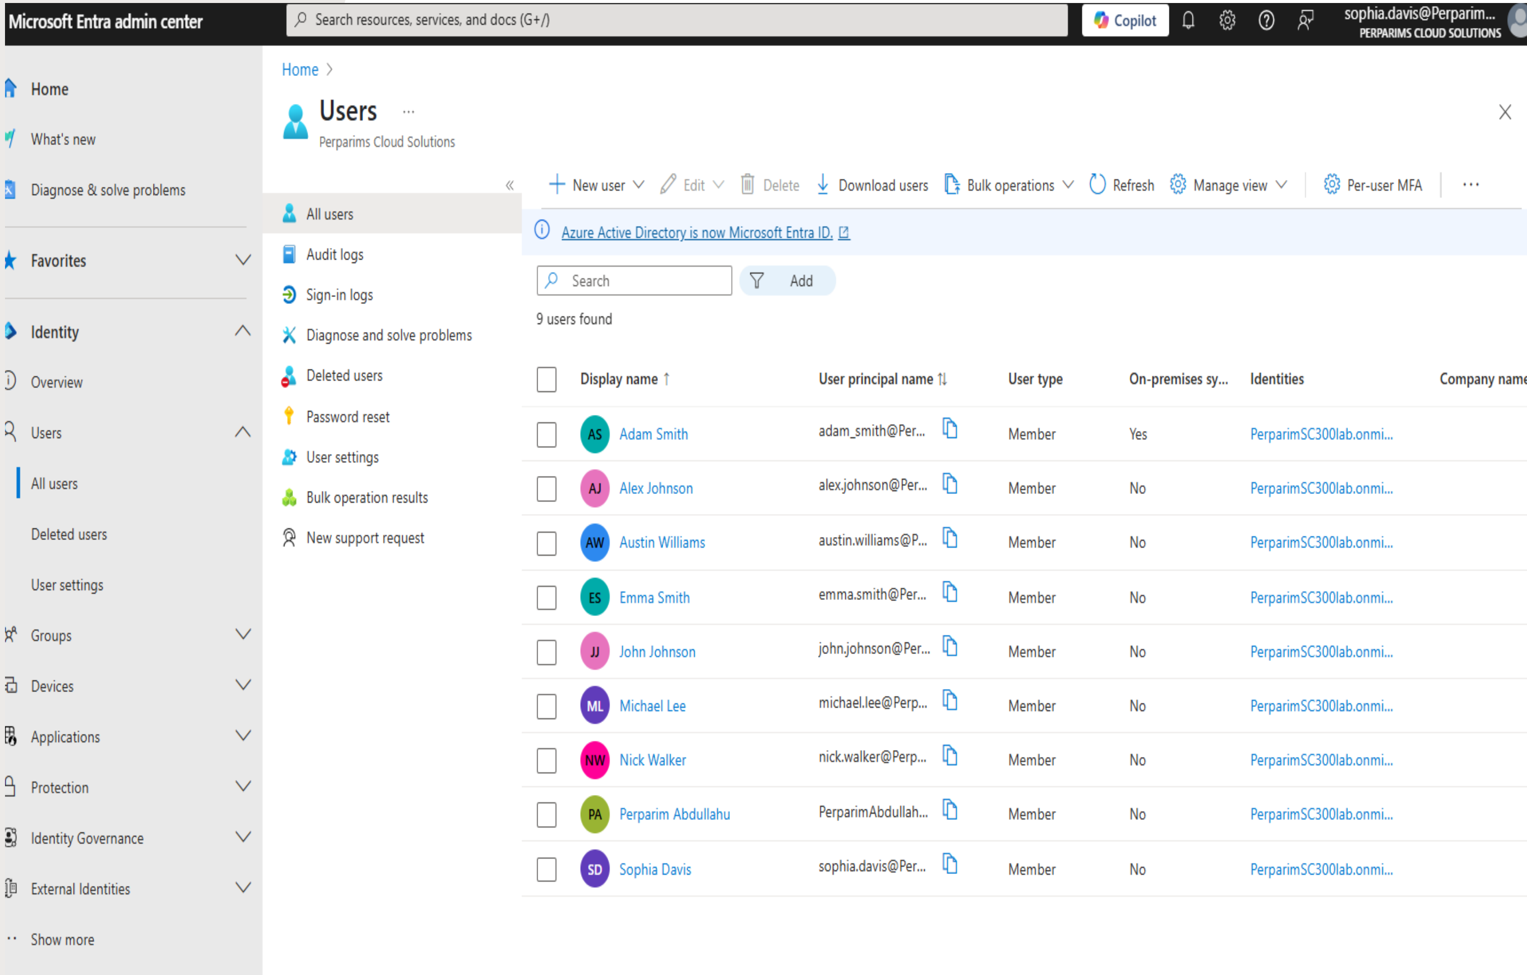
Temporary Admin Access in Action

After activating the *User Administrator* role, Sophia Davis can now see the **+ New user** option — something not available before.

This confirms the role is active and privileges are granted — but only for the approved time window.

🔐 Just-in-time access in action — secure, temporary, and auditable.



Azure Active Directory is now Microsoft Entra ID.

Secure Admin Access with Confidence

- ✅ Eliminate standing admin privileges
- 🔁 Grant temporary access only when needed
- 🔐 Enforce MFA, justification & time limits
- 🧠 Everything is logged for audit & compliance
- 📉 Reduces insider risk and accidental exposure

Start using Microsoft Entra PIM to protect your privileged roles — especially in hybrid or high-security environments.

Add PIM to your Zero Trust and compliance strategy — and sleep easier.
